Profile

I am a motivated full-stack web developer. I've focused on building lightweight, responsive, and semantic web apps with the use of modern technologies and standards. Furthermore, I love pair programming and sharing my knowledge with coworkers. I also appreciate the Agile method, domain-driven design, and working with clients. I am an open-minded quick learner who's able to develop ingenious solutions when faced with obstacles.

Professional Experience

2020/05 – 2023/08

Senior Full-stack Developer

SameSystem

Implemented visual and logical components for front-end applications based on designs provided in React.

Designed and implemented a communication API layer on the front and back end.

Extended the existing back-end system to incorporate the newly developed module.

Implemented an extensible integration mechanism on the back end. Offered general consulting on system design and planning.

Refactored one of the running integrations as an exemplary implementation under the new module.

Technologies: React, Redux, Ruby on Rails, GraphQL, Apollo, Node.js, Shell, Architecture, Management, REST APIs, Integration, SQL, Jest, Test-driven Development, Code Review, Ruby Performance, Regex, Ruby, OAuth 2, Python, OOP, REST, Design Patterns, ES6, Storybook, Redis, Tailwind CSS

2015/11 – 2020/04

Full-stack Developer

Brokerloop

Incorporated SMS/MMS marketing features based on the Plivo communication platform to engage the real estate community in Brokerloop networking.

Powered up printing marketing campaigns by adding support for rendering custom QR codes to for-sale and rental listings, bio sites, and other resources. Collected metrics for user interaction and presented them in the analytics dashboard.

Extended social marketing tools with a cross-posting feature for the brokerage community to promote their brands and run campaigns everywhere on social platforms like Facebook, Instagram, Twitter, and LinkedIn.

Mentored the team, shared expertise, ran code reviews, handled on-call DevOps activities in AWS cloud, and managed product releases.

Technologies: JavaScript, TypeScript, Angular, Node.js, Amazon, React, Stripe, YouTube, Video Conferencing, Google APIs, OData, RETS, GitFlow, Agile, Express.js, MySQL, MongoDB, Sequelize, Mongoose, OAuth 2, Docker, Mobile Development
